TERRAMIRRA PARK DEER FARM

Wholesale Venison Price List

Prime South Gippsland Venison

Our venison is supplied to order, from a whole carcass to sausages. We break down and bone out the meat, and package it in primal cuts, usually one to a vacuum bag. Our boning rooms can provide denuded venison (at extra cost).

We can supply bone in venison, but this is usually not supplied vacuum packed.

Please call us for information and availability.

As we grow our own deer, we have total control over the quality of our product, and are able to keep costs down as there are no middle people.

We have been supplying the market for over thirty years and supply many of the top restaurants and butcher shops in Melbourne and regional Victoria.

Venison can be supplied fresh or frozen.
